22 - 28 June 1986

D/CO

25X1 Arrangements have been made for a former high level member
 25X1 of the [] to address OC Managers at the OC Monthly Staff
 Meeting scheduled for 14 July at 0900 hours []
 We anticipate this session to be extremely interesting and a
 large turnout is expected. For safety reasons we will be
 limited to normal seating capacity. Consequently, it may be
 prudent to arrive early to ensure admittance.

OC-CS

25X1 In support of Project MERCURY negotiations were concluded
 with [], covering the procurement
 of additional CP9000II equipment and related hardware, as well
 as associated labor, in support of maintaining the Packet Switch
 25X1 in [] The performance of this contract will run
 25X1 concurrent with [] existing MERCURY efforts.

OC-MPS

The Management and Plans Staff completed its review of the
 OC Strategic Plan. Each Division provided an update to their
 respective business areas and the input indicates that OC is on
 track towards achieving its long-range goals. The intention of
 this report is to keep OC Senior Management cognizant of
 Division endeavors to meet goals of the Office.

OC-AMD

25X1 1. After 35 years of government service, []
 retired effective 27 June. He has been an enormous help to the
 Recruitment Section and will be greatly missed.

2. OC has received the concurrence of the Office of Personnel to publish the Panel D Telecommunicators Handbook and the Panel N Field Engineers Handbook. Final editorial changes are being made to the text. A July publication date is anticipated.

25X1 3. The designated replacement for Chief, Finance Services
25X1 Branch, [redacted] reported to AMD on 27 June. Her
25X1 previous assignment was with [redacted] This is
25X1 [redacted] second tour with OC, her first having been in 1980.

5. Representatives from the Communications School attended the second meeting of the OC Stress Committee held on 20 June. Although CS personnel are concerned with all issues involving stress in the OC environment, of primary interest is the development of training. Basic stress training will cover how to identify stress, how to identify its consequences, and how to cope with stress in working and personal scenarios. In addition, tailored training modules on stress will be offered to those in supervisory capacities. Current planning also involves training for OC spouses.

OC-ED

25X1

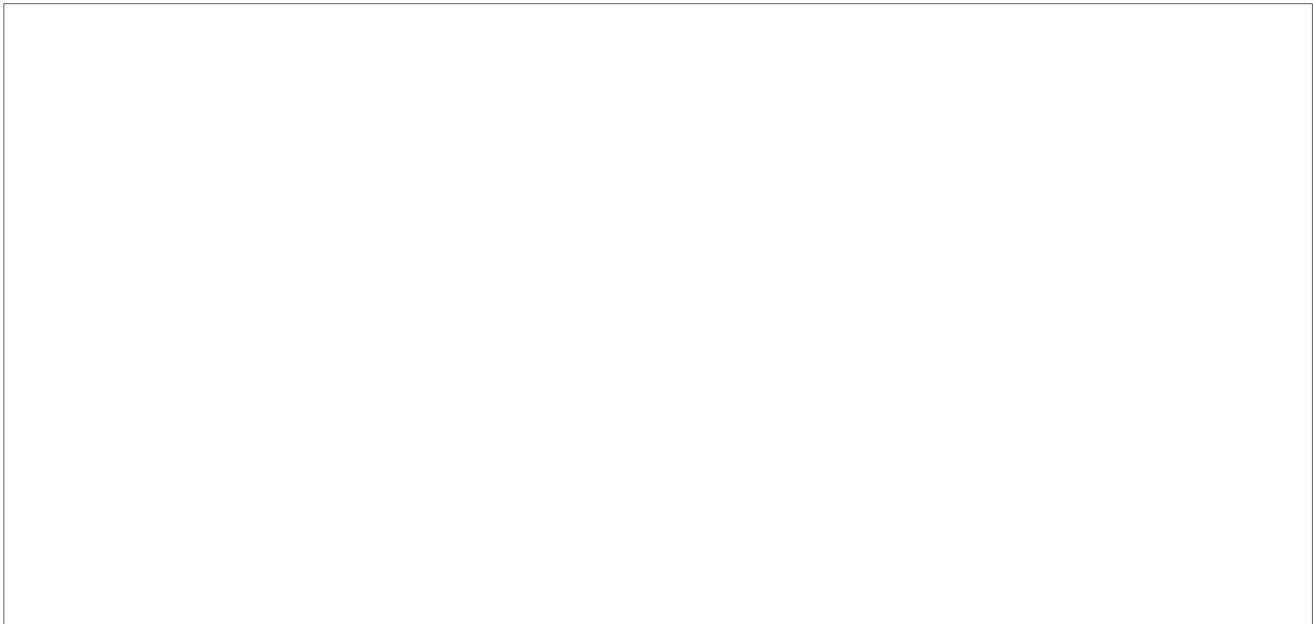

1. During the week of 23 June 1986, the Government witnessed testing of three field Time Division Multiple Access (TDMA) subsystems and one entry system. All equipment passed test criteria, but the results of the unencoded bit error rate test were too close to the theoretical limit to be plausible. All four units exhibited this phenomenon. [redacted] agreed to withhold shipment of these units while investigation of the source of this anomaly is undertaken and the root problem corrected.
